QuickQual

Supercharge Your Productivity With QuickQual

QuickQual gives your borrowers the tools they need to make informed decisions and saves you the headache of fielding phone calls and emails at all hours of the day. Ditch the PDF pre-qualification letters you're sending out now and reclaim precious time in your day, while simultaneously increasing applications and improving your conversion rates.

HOW IT WORKS

Instead of issuing static pre-qualification letters, Loan Officers send a link right to the borrower's cell phone where they can access an adjustable pre-qualification letter.

This calculator allows the borrowers to run their payment scenarios on the houses they're looking at and instantly download updated letters right to their phones.

Since the Loan Officer sets the parameters for each borrower, pre-qualification letters can only be issued within the range that the Loan Officer has authorized.

QUICKQUAL FEATURES

INTEGRATES WITH YOUR LOS
Impress your borrowers by providing them with accurate payment scenarios using MI factors right from your LOS. While we have a strategic partnership with ICE Mortgage Technology to integrate with Encompass® users, QuickQual can integrate with other platforms as well.

REAL ESTATE AGENT PORTAL
Your real estate agent partners will have access to their own portal where they can easily log in and see all of the clients you've given them access to, in one spot. Agents can easily generate pre-qualification and pre-approval letters for any offer they're submitting.

ANALYTICS & NOTIFICATIONS
Stay in the loop as your borrowers and real estate agents run their own payment and closing cost scenarios. Review data analytics and notifications so you can offer support to your customers right when they need it. On average, borrowers using QuickQual login over 22 times!
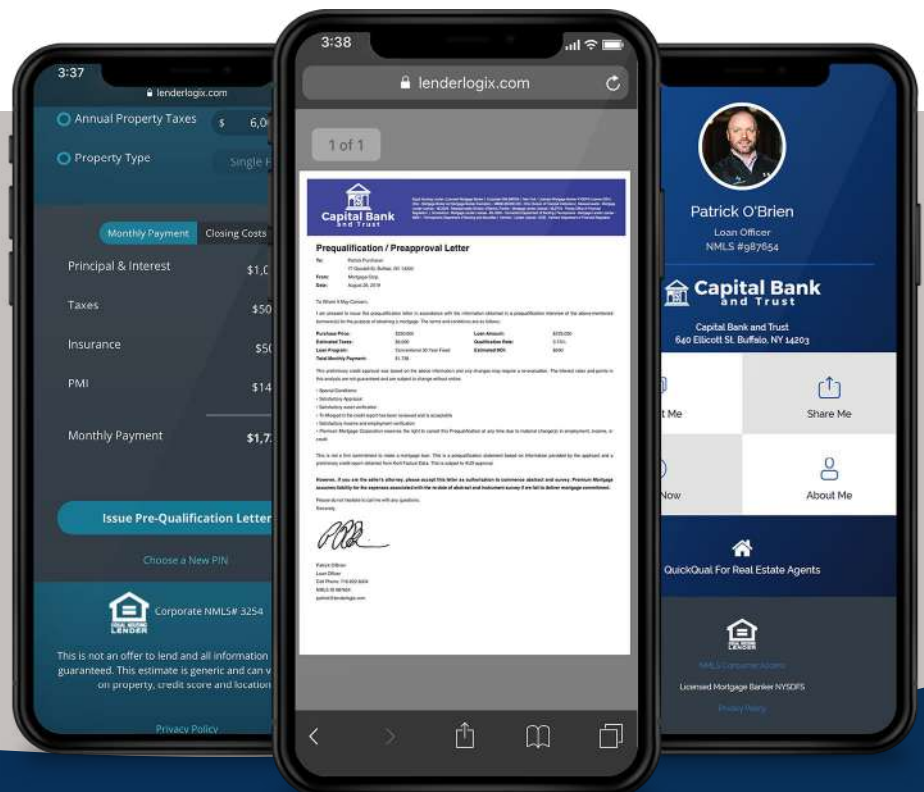

DIGITAL BUSINESS CARDS
QuickQual users get a free digital business card with your contact information for your agents and borrowers to easily reference and share. Co-branded cards are available for real estate agents upon request.

CUSTOMIZED FOR YOUR BUSINESS
Automation shouldn't sacrifice personalization or remove the human element of lending, so we'll customize the platform for you - from the branding down to the content. Strengthen your relationship with borrowers and agents using a simple, user-friendly interface designed specifically for your organization.

Spend less time doing clerical work and more time CLOSING deals.

Schedule a demo today and see how to add QuickQual to your Loan Origination System.
