QuickQual

Give Borrowers Instant Answers With QuickQual

*A TOOL FOR **REAL ESTATE AGENTS***

QuickQual gives your borrowers the tools they need to make informed decisions by allowing you both to run payment and closing cost scenarios and update your letters when needed. Real Estate Agents that use this technology rave about the ease of use, the competitive advantage it gives clients and the relief they feel not having to constantly wait on their lender.

HOW IT WORKS:

When your loan officer completes a pre-qual or pre-approval for one of your borrowers, instead of getting a PDF, you will receive an email notifying you of the new letter within QuickQual.

Once you set up your account, you'll log in to QuickQual and be able to access all of your borrowers' pre-qual and pre-approval letters on one dashboard, right from your phone.

So long as you stay within the authorized parameters your loan officer sets, you can run real-time payment and closing cost scenarios and generate updated letters as needed.

FEATURES & BENEFITS

IMMEDIATE ANSWERS
Do you typically have questions for your lender about different payment or closing cost scenarios? You can use QuickQual's mortgage calculator to run those numbers and find those answers yourself. Each calculator is financially customized for every borrower, so you know the numbers you're seeing are hyper-accurate.

UPDATED LETTERS ON THE FLY
How many times have you waited on an updated pre-qual or pre-approval letter before making an offer? With QuickQual, you can update your own letters on nights, weekends, and holidays - because your lender doesn't want to make you wait!
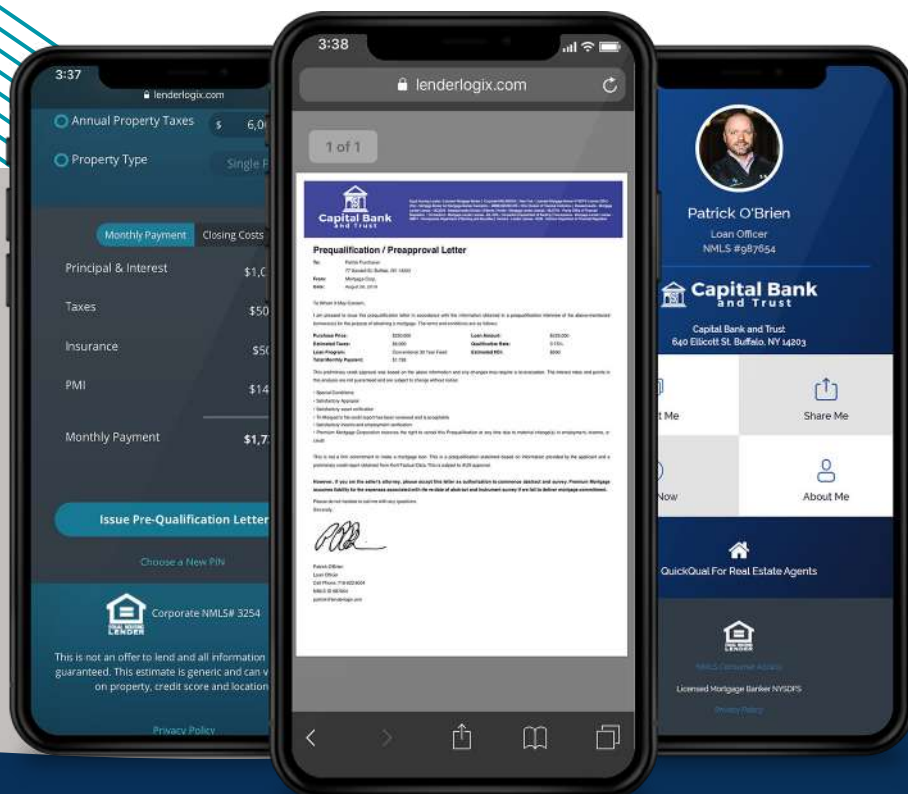

LETTER MANAGEMENT DASHBOARD
Keep track of your active (and expired) letters all in one place. Some Agents use this view as an added CRM application. QuickQual makes it easy to manage your clients and gives you the meaningful insights you need to reach out to borrowers at the right time.

NO APP DOWNLOAD REQUIRED
We've found that web-based applications like QuickQual have a much higher adoption rate by lenders, Agents and borrowers than apps you have to download from the app store.

Unlock convenience, accuracy and confidence when you partner with lenders using QuickQual.

You'll never go back to the old way of doing things.
